

Integrity® Collection Freestanding Bath Installation Manual

NOTE: This installation guide does not include details of waste connection. Final decision about waste connection should be made by a suitably qualified person.

CAUTION!

TWO PEOPLE ARE REQUIRED FOR LIFTING AND INSTALLATION OF THIS PRODUCT.

IMPORTANT!

DO NOT USE: Abrasive cleaners such as acid, ammonia, bleach, or similar solutions. Use of such solutions may cause corrosion, finish peeling and/or dull the surface.

DO NOT USE: Abrasive sponges or cloth. Never use steel wool or wired brushes that will permanently scratch the surface.

- Ensure that legs are adjusted in line with the base of the bath using a level.
- Set bath in desired location. Check clearances and drain location.

- Check that bath sits flat. If required, adjust legs to compensate for floor level.

- Set waste connection in position per local codes. Waste connection decision should be made by a suitably qualified person.
- Water test to ensure there are no plumbing leaks.

Waste connection MUST be set and bath water tested BEFORE moving on to next steps.

- Set bath in final position.
- Block A represents sump, above the floor rough, or whatever drain connection chosen.
- Specification sheets with relevant dimensions are available for download from www.jasonhydrotherapy.com or scan the QR code.

- Using appropriate silicone for surface types, apply a bead of silicone between the bath and floor.

IMPORTANT SAFETY RULES

ALWAYS FOLLOW THESE PRECAUTIONS WHEN USING THIS BATH.

- | | |
|--|--|
| • The bath must be installed and used as described in this manual. | • Never use bath after eating or consuming any alcoholic beverages or while intoxicated. Consuming alcoholic beverages before or during bathing will cause drowsiness and may result in hyperthermia, loss of consciousness, or even drowning. |
| • To reduce the risk of injuries, use caution when entering or exiting the bath. | • If you are pregnant or feel that you may be pregnant, consult your doctor before using bath. |
| • Do not permit children or persons with infirmities to use the bath without adult supervision. | • Never use any electrical devices such as a hair dryer, lamp, telephone, TV, radio, toaster or other such devices within 5 feet of the bath. |
| • People using medications or having adverse medical conditions must consult a physician before use of this tub to avoid potential hyperthermia and possible drowning. | • Do not overfill the bath before entering. Entering the bath when filled can cause overflow and slippery conditions. Use extreme caution when entering and exiting the bath. |
| • Water temperatures above 100°F may cause hyperthermia and/or other health problems. Check water temperature and adjust as needed for personal comfort. | |
