

Technical drawing of a rectangular circuit board layout. The overall dimensions are 66" (width) and 36" (height). The layout features a central rectangular area with a width of 22" and a height of 10 13/16". The central area is surrounded by a border of 3 3/4" on the bottom and 6" on the top. The layout includes several components labeled JT (Junction Terminal), SU (Surface Unit), and a central component labeled 6". The layout also shows a power supply section on the left labeled VPP POWER and a component labeled 6" on the right. The layout is enclosed in a rectangular frame with rounded corners.

Note: The blower extends approximately 1" past the end radius of the bath. This requires angling the bath into the drop-in hole.
